

INFECTION PREVENTION UPDATE FOR DAY HOSPITAL/PROCEDURE FACILITIES PERTH, FRIDAY 2 OCTOBER 8.00AM – 12.30PM

This update is intended for Day Hospital and Day Procedure Facility staff who either assume the role and responsibility for infection prevention and management in their health care facility or who are proactive in minimising infection risk in patients and staff. The update will further equip RN/ENs with the knowledge, problem solving skills and critical thinking ability to provide leadership and act as a role model to other health care workers, patients and visitors with regard to infection prevention and control principles and practices.

UPDATE TOPICS

Getting your head around AS/NZS 4817:2014 requirements

Emerging pathogens and environmental cleaning/disinfection

Preoperative skin cleansing

Mobile equipment and implications for infection prevention

Best practices to prevent infections during laundering of healthcare textiles

Hand hygiene products and their effect on skin condition with improved compliance

Note: The program is a guide and may be subject to change or additional content dependent on current issues

EDUCATOR/FACILITATORS:

This update will be delivered by well known Infection Prevention Consultant Megan Reilly and Sterilisation Advisor Jes Farate. Megan is a registered general nurse with a Certificate in Infection Control obtained from Fremantle Hospital (1988). She obtained her Bachelor of Nursing at Edith Cowan University in 1999 and Masters in Health Science (Infection Control) at Griffith University in 2002 with first class honors. In addition, Megan has a Certificate IV in Assessment and Workplace Training, Immunisation Competency Certificate and is an accredited credentialed infection control professional (CICP). Jes joined the Hands-On team in May this year. She started her sterilisation career in 1993 as a technician at Fremantle Hospital, completing her Sterilisation Technology Course in 1996. For the past 15 years Jes has worked at Peel Rockingham Health Service as a Supervisor/Coordinator in the Hospital Sterile Supply Department. She worked as a Casual Lecturer teaching Certificate III in Sterilisation at TAFE in 2010 and most recently was the Interim A/Deputy Manager at Fiona Stanley Hospital SSD assisting with overcoming the reprocessing of reusable medical device challenges in a new tertiary hospital.

Megan and Jes have a combined 49 years' experience in infection prevention, management and sterilisation. They enjoy sharing their knowledge and passion in a meaningful and entertaining way to their audiences.
